## CONTENTS OF VOLUME 63

NUMBER 1, JULY 1956

|                                                                                                                                                                      |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| ROBERT VAN REEN AND MARY ANN WILLIAMS. Studies on the Influence of Sulfur Compounds on Molybdenum Toxicity in Rats. ....                                             | 1   |
| JOHN W. CRAMER AND HARRY STEENBOCK. Calcium Metabolism and Growth in the Rat on a Low-Phosphorus Diet as Affected by Vitamin D and Increases in Calcium Intake. .... | 9   |
| ROBERT E. KAY, DENNIS C. HARRIS AND CECIL ENTENMAN. Quantification of the Ninhydrin Color Reaction as Applied to Paper Chromatography. ....                          | 14  |
| S. GANGULY AND S. C. ROY. Utilization of Phosphorus by <i>Streptomyces griseus</i> during its Aerobic and Anaerobic Growth. ....                                     | 26  |
| TAKETAMI SAKURAGI AND FRED A. KUMMEROW. The Biological Utilization of Various Fat-Soluble Esters of Pyridoxine by Rats. ....                                         | 32  |
| W. J. WOLF AND D. R. BRIGGS. Ultracentrifugal Investigation of the Effect of Neutral Salts on the Extraction of Soybean Proteins. ....                               | 40  |
| E. T. MERTZ AND H. MATSUMOTO. Further Studies on the Amino Acids and Proteins of Sulfur-Deficient Alfalfa. ....                                                      | 50  |
| D. B. ZILVERSMIT AND JESSE L. BOLLMAN. Role of the Liver and Intestine in the Turnover of Plasma Phosphatides in the Rat. .                                          | 64  |
| F. MRAZ, MARIE LENOIR, J. PINAJIAN AND H. PATRICK. Influence of Parathyroid Extract, Cortisone and Dienestrol Diacetate on Metabolism of Cesium in Rats. ....        | 73  |
| MYER G. HOROWITZ AND IRVING M. KLOTZ. Interactions of an Azomercurial with Proteins. ....                                                                            | 77  |
| A. ROTHSTEIN AND A. D. HAYES. The Relationship of the Cell Surface to Metabolism. XIII. The Cation-Binding Properties of the Yeast Cell Surface. ....                | 87  |
| R. G. WOLFE. Macromolecular Constituents of Proliferating and Non-proliferating Yeast Extracts. ....                                                                 | 100 |
| ARTHUR L. KOCH, WILLIAM A. LAMONT AND JOSEPH J. KATZ. The Effect of Anhydrous Strong Acids on Ribonuclease and Lysozyme. ....                                        | 106 |
| ELIZABETH KAISER AND B. M. KAGAN. Separation of Vitamin A Alcohol and Vitamin A Esters by Paper Chromatography. ....                                                 | 118 |
| CHOZO MITOMA, HERBERT WEISSBACH AND SIDNEY UDENFRIEND. 5-Hydroxy-tryptophan Formation and Tryptophan Metabolism in <i>Chromobacterium violaceum</i> . ....           | 122 |

|                                                                                                                                                  |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| T. HERRERA, W. H. PETERSON, E. J. COOPER AND H. J. PEPPLER.<br>Loss of Cell Constituents on Reconstitution of Active Dry Yeast.....              | 131 |
| E. DOUGLAS REES AND S. J. SINGER. A Preliminary Study of the Properties of Proteins in Some Nonaqueous Solvents.....                             | 144 |
| W. LIJNSKY AND J. H. QUASTEL. Metabolism of Carcinogenic Hydrocarbons by Soil Microorganisms.....                                                | 160 |
| F. GHIRETTI. The Decomposition of Hydrogen Peroxide by Hemocyanin and by its Dissociation Products.....                                          | 165 |
| CHALMERS L. GEMMILL. The Iodination of Phenolic Compounds Related to Thyroxine.....                                                              | 177 |
| CHALMERS L. GEMMILL. The Effects of Iodine on the Ultraviolet Absorbance Spectra of Thyroglobulin, Casein and Insulin....                        | 192 |
| MARTIN SCHWARTZ. The Reduction of Ferricyanide by Living <i>Chlorella</i> Cells.....                                                             | 201 |
| CARL R. WOESE. Heat Inactivation Studies on Animal Viruses. I. The Inactivation of Virus Hemagglutinin.....                                      | 212 |
| ERIK ODEBLAD, BAIDYA NATH BHAR AND GUNNAR LINDSTRÖM. Proton Magnetic Resonance of Human Red Blood Cells in Heavy-Water Exchange Experiments..... | 221 |
| ROBERT W. SWICK, ARTHUR L. KOCH AND DOROTHY T. HANDA. The Measurement of Nucleic Acid Turnover in Rat Liver....                                  | 226 |
| SERGE N. TIMASHEFF, JULIAN M. STURTEVANT AND M. BIER. On the Electrophoretic Heterogeneity of Trypsin.....                                       | 243 |
| STANLEY M. KLAINER AND GERSON KEGELES. The Molecular Weights of Ribonuclease and Bovine Plasma Albumin.....                                      | 247 |
| LETTERS TO THE EDITORS                                                                                                                           |     |
| G. N. RAMACHANDRAN AND V. SASISEKHARAN. Cylindrical Lattice Structure of Collagen.....                                                           | 255 |
| E. H. MOSBACH AND M. BEVANS. Formation of Gall Stones in Rabbits Fed 3 $\beta$ -Cholestanol.....                                                 | 258 |
| ROBERT W. BAN AND ELLERY C. STOWELL, JR. Production of Ergothioneine by <i>Claviceps purpurea</i> in Defined Culture.                            | 259 |
| J. E. TILL AND ERNEST POLLARD. Cross Reactivation of Deuteron Bombarded T1 Bacteriophage.....                                                    | 260 |
| ALEXANDER MILLER AND HEINRICH WAELSCH. The Transfer of the Formimino Group of Formamidinoglutaric Acid to Tetrahydrofolic Acid.....              | 263 |
| JESSE P. GREENSTEIN, SANFORD M. BIRNBAUM, AND MILTON WINITZ. A Water-Soluble Synthetic Diet.....                                                 | 266 |
| Book Reviews.....                                                                                                                                | 269 |

|                                                                                                                                                             |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| S. RATNER AND OLGA ROCHOVANSKY. Biosynthesis of Guanidinoacetic Acid. I. Purification and Properties of Transamidinase.                                     | 277 |
| S. RATNER AND OLGA ROCHOVANSKY. Biosynthesis of Guanidinoacetic Acid. II. Mechanism of Amidine Group Transfer.                                              | 296 |
| IRVING I. GESCHWIND AND CHOH HAO LI. Corticotropins (ACTH). IX. Investigations on the Serine and Tyrosine Residues in $\alpha$ -Corticotropin.              | 316 |
| HIROSHI OKAZAKI. Joint Action of a Dextrinogenic Amylase, a Glucose-producing Amylase and Transglucosidase upon Starch in the Presence or Absence of Yeast. | 322 |
| MARÍA ISABEL ARDAO AND HUGO A. FREYRE. Effect of Gonyleptidine on the Metabolism of Mammalian Erythrocytes.                                                 | 334 |
